## Sam Dupont

Senior Developer at Atlassian

### Summary

N/A

## Experience

#### Senior Developer at Atlassian

September 2012 - Present

I'm a full stack developer on Atlassian's growth team. I create and maintain the infrastructure, services, and applications used to run product experiments, turning the successful ones into permanent product improvements. Current skills include Java 8, Cassandra 3+, SQL, Spring, ES6, and a whole slew of AWS services including: EC2, S3, Kinesis, Lambda, CloudWatch, SNS, SQS, and API Gateway.

#### Software Engineering Lead at Rovi

February 2011 - August 2012 (1 year 6 months)

#### **Senior Software Engineer at Sonic Solutions**

February 2007 - February 2011 (4 years)

I worked on all technical aspects of www.roxioonline.com, everything from system design, to writing serverside java and php code, to client-side javascript web 2.0 applications, to apache configuration, to environment deployment and configuration. You name it, and I've probably worked on it.

#### **Software Engineer**

2000 - 2003 (3 years)

#### Education

San Francisco State University
MA, Medieval History, 2004 - 2006
Xavier High School
1987 - 1991
