Abe Haskins

Developer Programs Engineer at Google

Summary

I love creating awesome things for awesome people to use.

Experience

Developer Programs Engineer at Google

October 2015 - Present

Lead Consultant

August 2014 - October 2015 (1 year 2 months)

Managed client relations and subcontractors, led projects, and performed engineering for various companies using the FAN (Firebase, AngularJS, and NodeJS) stack.

Clients include...
- World Health Organization
- Wikistrat
- iRobot
- Wodify
- Riskby
- Andela.co
- and several more!

Consultant at Firebase

July 2013 - August 2014 (1 year 1 month)

Lead development on internal and contributed to open-source Firebase-powered applications, contributed to various other Firebase-powered projects. Wrote documentation and worked with customers to help implement Firebase-powered solutions.

Assistant Web Developer at Milwaukee School of Engineering

March 2011 - March 2012 (1 year)

Added to and expanded on existing websites for MSOE. This included creating new tools with PHP, adding client-side interactivity with Javascript/jQuery and loads of marking up content into HTML/CSS.

Education

Milwaukee School of Engineering

Bachelor's degree, Management Information Systems, 2011 - 2013
